

MUNI

THE CZECH SCIENCE FOUNDATION (GAČR) CALLS 2021

Zdenka Žampachová

zampachova@rect.muni.cz

Research Office, Rectorate

Basic characteristics of the Czech Science Foundation Calls

Projects in all scientific fields in basic research:

- Technical sciences
- Physical sciences
- Medical and Biological sciences
- Social sciences and humanities
- Agricultural and biological-environmental sciences

The Czech Science Foundation Calls 2021

- Standard projects (2-3 years)
- International projects
 - Germany, Taiwan, Sao Paolo (2-3 years)
 - Russia (3 years)
 - Korea (2 years)
- LA grants
 - CEUS (Central European Science Partnership) –Austria, Poland, Slovenia (3 years)
 - Switzerland (participants from the Czech republic can only be in the role of „partner organization“; 2-3 years)
- JUNIOR STAR (5 years)
- EXPRO (5 years)

Important dates

**CHECK THE FACULTY
DEADLINES!**

- Deadline for project submission in GRIS: **07/04/2020**
 - in case of cooperation with Switzerland 01/04/2020
- Results
 - November 2nd 2020 (JUNIOR STAR and EXPRO); December 1st 2020 (standard, international, LA grants)
- Beginning of the projects
 - 01/01/2021
- **Deadline for the MU Research Ethics Committee**
 - **17/03/2020; 6 PM** (except Medical faculty, that has their own Ethics Committee)

MU Research Ethics Committee

Mandatory attachments:

- **Request** (applicant confirms that all information are in line with the project proposal)
- **Informed consent** (please use the new template)
- **In case you plan the cooperation with health institution, Letter of Commitment has to be sent to MU Research Ethics Committee until March 31st 2020**

More information regarding ethics:

Calls - allocation

Budget allocation of individual Calls from 2021 to 2023 (EXPRO and JUNIOR STAR from 2021 to 2025)

Standard projects	International projects	EXPRO	JUNIOR STAR
3 200 000ths. CZK	177 000ths. CZK	628 023ths. CZK	2 250 000ths. CZK*

Budget allocation of individual Calls from previous Calls

Standard projects	International projects	EXPRO
2 550 000ths. CZK	60 000ths. CZK	2 750 000ths. CZK

Specific rules

ONE PERSON CAN APPLY FOR:

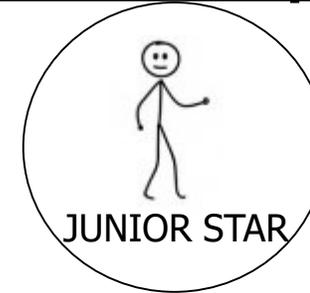

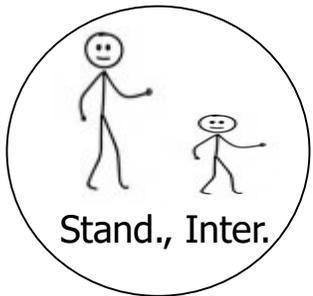

- one proposal as applicant and one proposal as co-applicant in EXPRO and JUNIOR STAR Calls, **and**
- one proposal as applicant and one proposal as co-applicant in Standard and International Calls, **and**
- one proposal as applicant and one proposal as co-applicant in LA grants

BUT MAY PARTICIPATE ONLY IN:

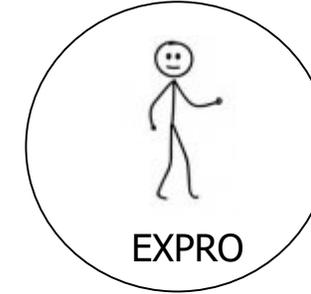

1. One EXPRO project, **or**
2. One JUNIOR STAR project, **or**
3. Combination of max. 2 projects of standard and inter. calls **and**
combination of max. 2 projects of LA grants

Project proposals – you can apply for one project as applicant and for one project proposal as co-applicant within cells below

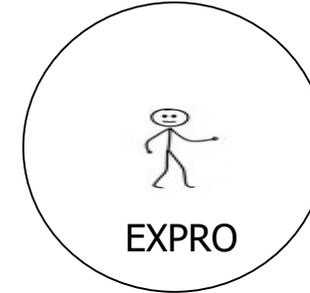

One researcher can implement ONLY:

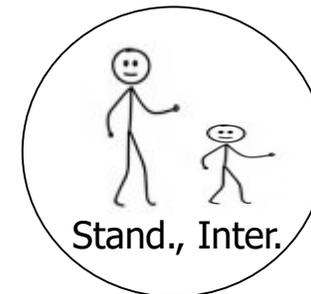

OR

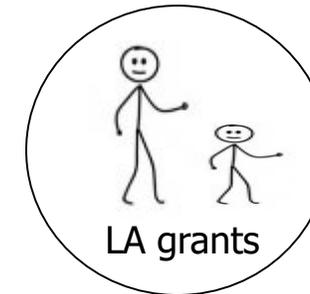

OR

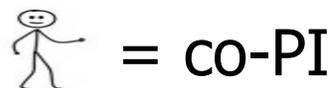

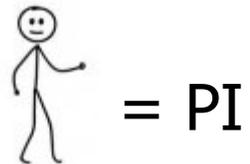

OR

AND

M U N I

Standard grants

- Advanced scientific projects with the potential to achieve results of international significance
 - For applicant at any stage of career
- Proposals are evaluated by panel members (<https://gacr.cz/o-gacr/poradni-organy/panely/>)

International projects

(Germany, Taiwan, Korea, Russia, Sao Paolo)

- **Scientific part has to be written and sent by both partners to both agencies according to rules of each agency**
- **Proposals are evaluated by both agencies separately** and final results depends on the decision of each agency
- Copy of the foreign proposal has to be attached or delivered till June 30th at the latest

LA grants (Austria, Poland, Slovenia) + Switzerland

- **Proposals are evaluated only by one agency**
- Foreign applicant cannot be in an employment relationship with any of the Czech institutions
- Scientific part (C1) has to be written only by „Lead“ partner according to the rules of the „Lead“ agency
- Researchers can choose the „Lead“ evaluating agency
 - bilateral projects, at least 40% of the total costs must be requested from the Lead agency
 - trilateral projects, at least 25% of the total project costs must be requested from the Lead agency

Eligible costs (Standard, International, LA grants)

– Personnel costs

- recommended workload at least 0,2 FTE for applicant; 0,1 FTE for co-applicant
- limit CZK 60 000/month/1FTE
- Agreements on work (DPP and DPČ in Czech) max. CZK 400/hour

– Other direct costs

- material costs, travel costs, costs for other services and non-material costs, patent and license payments

– Investments

- limited up to 10% of the personnel costs and other direct costs, excluded indirect costs

– Indirect costs

- standard and international project - max 20 % of personnel costs and other direct costs (excluded indirect costs);
- LA grants - max 25 % of personnel costs and other direct costs (excluded indirect costs)

Evaluation (standard, international, LA grants)

– Originality and quality

- scientific importance; prospects of the project; international cooperation and expected benefits; aims; proposed deliverables; concept; methodology; timeline

– Research expertise of the applicant (co-applicant/s) and other researchers

- Feasibility of the project regarding to technical and institutional facilities

Standard, International proposals - If the quality of the project proposal is evaluated as insufficient, all projects proposals next year will not be evaluated (without definition of knowledge gap, hypothesis, methodology is not adequately chosen, results that cannot be achieved by proposed research).

EXPRO

- **To set the standards of excellent science**
 - **To overcome barriers limiting the success rate of ERC**
 - **To submit the ERC project**
-
- max. one co-applicant
 - min. 0,5 average annual FTE (for applicant, co-applicant, other researchers, PhD students)
 - Scientific progress report after 2,5 years; final report one year after the project ends
 - Copy of ERC proposal has to be delivered together with the final report at the latest

JUNIOR STAR

- **To support excellent basic research**
 - **To provide the opportunity for scientists at the beginning of their career to establish an independent group**
-
- Only one applicant
 - Excellent junior researcher is limited up to 8 years after the Ph.D (Ph.D. defence has to be finished till 30th September 2020)
 - min. 0,5 average annual FTE (for applicant, co-applicant, other researchers, PhD students)
 - Applicant must at the same time be an author of prestigious international journals or to achieve another comparable result
 - Scientific progress report after 2,5 years; final report one year after the project ends

Eligible costs (EXPRO, JUNIOR STAR)

– Personnel costs

- the minimum average workload every year is 0,5 FTE for applicant/co-applicant/other researchers (except for technical and administrative workers)
- agreements of work performed outside of employment can be up to 7% of the total budget for personnel costs.

– Other direct costs

- material costs, travel costs, costs for other services and non-material costs, patent and license payments

– Investments

- limited up to 20% of the total of personnel and other direct costs

– Indirect costs

- **max 20 %** of personnel costs and other direct costs (excluded indirect costs)

Evaluation (EXPRO, JUNIOR STAR)

- 1. stage – 4 evaluation reports (according chosen discipline committee)
- 2. stage – min. 2 external evaluation reports

Project evaluation:

- Originality and quality
 - (aims, methodology, qualification and composition of the team, types of expected outcomes, international cooperation, outcomes of previously solved GACR projects)
- Research expertise of the applicant
- Feasibility of the project regarding to technical and institutional facilities

ERC grants

Frontier research

Unconventional innovative concepts and approaches

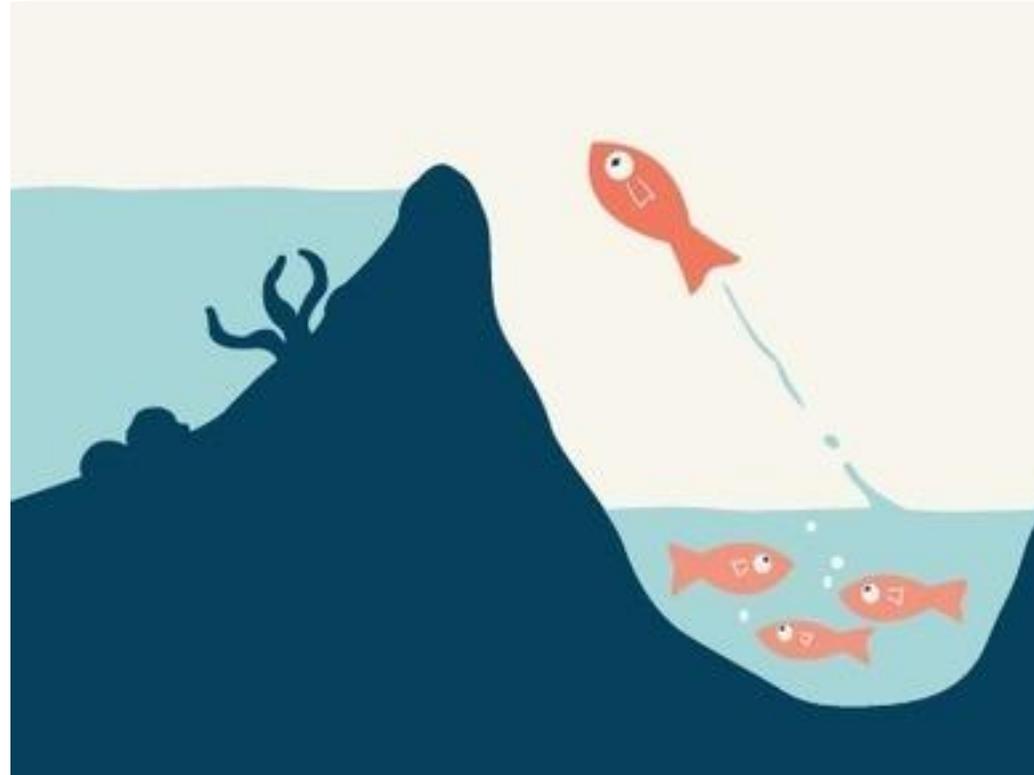

Emerging new field

High-risk/high-gain

Pioneering

Opening new horizons of knowledge

Evaluation based on research excellence

Crossing boundaries between or across disciplines

ERC application

- Two-step evaluation
- Single-step submission

B1 part: 5 pages scientific proposal + abstract + 2 pages CV + 2 pages early achievements

B2 part: 15 pages scientific proposal incl. state-of-the-art, objectives, methodology, resources

Additional documents: HI binding statement, ethics review, PhD record

	Starting Grant	Consolidator Grant	Advanced Grant	Synergy Grant	Proof of Concept Grant
Eligibility	> 2 and ≤ 7 years from PhD	> 7 and ≤ 12 years from PhD	-	-	PIs hold (-ed) ERC

GRIS - Part D2 Bibliography

Total number of results defined in the Methodology for Evaluating for Results of Research and Development for last 5 years (according to RIV)

J_{imp} - Article in professional journal, impacted

J_{sc} - Article in professional journal, included in Scopus database

J_{ost} - Article others

B - Scholar book/monograph

C - Chapter in scholar book/monograph

D - Article in conference proceedings

P - patent

F - Utility or industrial design

Z - Pilot run, verified technology, variety, breed

G - Prototype, functional sample

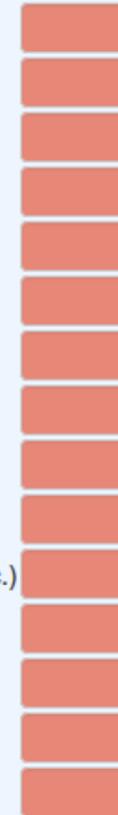

H - Result implemented by funding provider (legislation, norms, strategic documents, policy recommendations, etc.)

L - Specializes map

N - Certified methodology and procedure

R - Software

V - Research report containing information classified pursuant to special legislation

Total number of citations, including autocitations, and a H-index (according to Web of Science)

Total number of citations, of all of the scientific work according to

Used methodology and total number of citation "by used Methodology"

H-Index according to Web o Science

GRIS – part C2 Results

A - Basic Info	A - Abstract	B - Total	Mgr. Zdenka Žampachová	C2 - Results	Attachments	Statement
----------------	--------------	-----------	------------------------	---------------------	-------------	-----------

Expected Project Results Estimate

Description of the result types, which are expected to be published while carrying out the grant project (articles in international scientific journals, monographs, international compilations etc.).

Expected Project Results

- publications in journals with IF (Jimp), publications in specialist periodics (Jsc, Jost), monographs (B), chapters in monographs (C), articles in proceeding in the Scopus or WOS Conference Proceedings Citation database (D)

Part C - Results + international cooperation (International projects, LA grants)

A - Basic Info	A - Abstract	B - Total	Mgr. Zdenka Žampachová	C - Results + int. coop.	Attachments	Statement
----------------	--------------	-----------	------------------------	---------------------------------	-------------	-----------

Expected Project Results Estimate
Description of the result types, which are expected to be published while carrying out the grant project (articles in international scientific journals, monographs, international compilations etc.).

Expected Project Results

Description of international cooperation

The benefits of international cooperation

Attachments

- CV of PI (co-PI, if any)
- Copy of relevant licenses (ethics committee, GMO etc.)
- List of foreign institutions that you do not want them to evaluate your proposal
- Identification of the chosen supplier, if you plan to have the supply from one supplier for more than 500ths CZK
- Letter of Intent (confirming foreign cooperation)

- **JUNIOR STAR**
 - Copy of Ph.D. title/confirmation of defence or statement of the supervisor that it can be assumed that the doctoral thesis will be defended until September 30th, 2020
 - Copy/ies of documents referring to the significant international experience
- **LA grants**
 - Comparative cost overview, in case of GACR in charge as the Leading evaluation agency
 - Copy of foreign proposal in case of LA projects with foreign agency in charge of evaluation
- **International projects**
 - CV of foreign applicant
 - Copy of foreign proposal

Part C1 – scientific part

- max. limit is **10 pages** (in case of standard and international projects), **15 pages** (in case of LA grants, JUNIOR STAR and EXPRO projects) with standard font of size 11, spacing 1
- has to be added as attachment file in PDF (max 6MB)
- project proposal has pre-defined structure and has to contain:
 - summary of the current state of the art; aims; methods; timeline; description and justification of the necessity of international cooperation; in case of involvement co-applicant, justification is necessary; equipment of the workplace; description of the team including their working capacity; references
 - In case of EXPRO projects, you should also mention project management

Final version – conversion to pdf

- It is possible to create final version repeatedly, i.e. the application is not locked up by generating a final version
- It is not necessary to use the last version as the final one
- Keep the original name of the file given by the application

Internal processes at MU

**Check the internal
deadlines at your faculty**

- Inform your Dean's office
- Create the project proposal in ISEP
- Check the Ethical aspects and if needed, send the request to the MU Research Ethics Committee
- Check the budget according rules at your faculties
- Deliver signed cover sheet to the Dean's office before the deadline of the project submission

Thank you for your attention!

Zdenka Žampachová, kl. 7694
